- Poliomyelitis*—Albert G. Bower, M.D., 1238 Dorothy Drive, Glendale.

C. Conferences on Cardiac and Vascular Disease

Sixteen half-hour clinical demonstrations and lectures in heart and circulatory disease will be presented in connection with the scientific exhibit of the California Heart Association at the annual meeting of the California Medical Association at Del Monte.

Dr. William H. Leake of Los Angeles is chairman of the committee preparing the demonstrations. Sixteen clinicians from all parts of the state will review the results of recent progress in the diagnosis and treatment of various types and manifestations of cardiac and vascular disease.

The program will begin late Monday, May 1, and continue through Tuesday and Wednesday. They are arranged so there will be no conflict with the medical sessions.

Detailed programs, giving places and hours of the conferences, will be available at the California Medical Association registration desk, and will appear in the programs to be distributed at Del Monte.

VII—COMMERCIAL EXHIBITS†

- Aloe Company, A. S.**, 932 South Hill Street, Los Angeles. Booth No. 15.
